**Subject: Please do not award Igadl Limited Retail Marijuana Store a license to operate in the Fraser Valley area**

I am writing at this time to express my disapproval of the idea of awarding Igadl Ltd. Retail Marijuana Store or any similar facility a license to operate in the Fraser Valley area. The Fraser Valley has long been known to be a place that promotes a healthy lifestyle for families to live and visit, boasting such areas as Granby Ranch, Grand Lake, Snow Mountain Ranch, Younglife Camp etc. Research has demonstrated that low potency marijuana directly affects parts of the brain responsible for memory, reaction time, motivation, attention and learning. Research has also shown low potency marijuana to be linked with mental illness. The existence of a facility such as Igadl Ltd. in the Fraser Valley area would fly in the face of everything that Fraser County stands for. Please declare a permanent moratorium on any such facilities in the Fraser Valley area.

Thank you.

Sincerely,

Scott Korman
