We want to emphatically voice our opposition pot shops being approved along highway 40 around the Blue Bird Hotel at the approach to the town of Grand Lake. Our house is in the Wild Acres II subdivision very close to the proposed locations.

Grand Lake is a family oriented resort community. People bring their kids and grandkids here for its wholesomeness. These locations are surrounded by homes. You would be approving marijuana shops in a residential neighborhood.

We would not have built here 15 years ago if there was this kind of presence in the community. We are sure others do and will feel the same way. This will not only have an adverse effect the properties values in the immediate area but also in Grand Lake as a whole. It will make families reconsider if the want to come to Grand Lake. That will hurt the entire town. We can only see an adverse effect on the entire town if you approve these applications.

On another level. these requests do not make sense numbers wise. Grand Lake is a community of fewer than 500 residents year round. These would need to be destination shops. We do not want to attract pot seekers here, right next to our homes. We are concerned with the problems they might bring, especially increased crime.

Please deny these applications for marijuana shops in Grand Lake. They have no business being here.
