Subject: Serene Wellness Marijuana

I did not vote to allow marijuana in the state of Colorado and I am still opposed to allowing marijuana in our lovely County. Please vote against letting Serene Wellnessc come to Winter Psrk. There was a letter to the editor in today's Sky Hi News from a man who took his family to a concert up here last weekend and he could smell marijuana and after he told the police, they did not do anything to prevent the people from smoking in a public place. I believe there is a law against smoking marijuana in a public place. They can go to Tabernash to buy marijuana if they have to have it. Let's not make it easy for them to get it in Winter Park.
