**Subject:** **Oppose Marijuana on Main Street in Winter Park**

My wife and I strongly oppose the application for proposed dispensary in the Valley Hi Motel. We have owned our condo in Winter Park for 24 years and this dispensary completely flies in the face of all the good work that the Winter Park town council has done in the last few years to bring safe, smoke free, family friendly entertainment to our town. Having a dispensary on main street because of a loophole when it is clearly opposed by the town council, the resort operator, the mayor of Fraser and without the consent of citizens of Winter Park who own property but cannot vote seems unjust. There are plenty of dispensary locations nearby. The branding that Winter Park has been cultivating for years as a family friendly area is jeopardized by this ridiculous manipulation of the law.
