Subject: No to new Marijuana

I am in favor of business in Winter Park. I am in favor of Marijuana business in Winter Park. I do not use the products, and this is by choice, but I did vote for legalization.

I am NOT in favor of corrupt business people in any fashion. Volpe is corrupt. I have seen enough corruption on our national politics. I do NOT want this in my town. Others may be in town, but I do not want this mere feet from one of our best trails for families.

I live very very close to the location and I have seen how bad the drivers are there who cut across traffic to park in front of the hotel, now you add more business to this? This is not good.

Different location? maybe? Better / not corrupt business people? maybe?
