- May 15th - Oct 15th 7:00 am - 7:00 pm

Dates and times of inspection for 2019 are as follows:

All ramps operate 7 days/wk.

Public Access Boat Ramps

New ANS Stamp Requirement for 2019

Motorboats and sailboats must have an ANS Stamp prior to launching in Colorado.

Colorado residents can purchase an ANS stamp while registering the motorized (gas or electric) watercraft. For already registered motorboats and sailboats, ANS Stamps can be purchased online at www.cpwshop.com or at any CPW office or sales location.

Exempt watercraft are not required to purchase an ANS Stamp.

Boat ANS Inspection and Decontamination

All trailered and/or motorized (gas or electric) watercraft must be inspected prior to launching in any lake or reservoir located in Grand County.

Because ANS (Aquatic Nuisance Species) are primarily spread by recreational boating and angling, Colorado has implemented a watercraft inspection and decontamination program to contain existing ANS and prevent the introduction of others.

Preventing the introduction and spread of Aquatic Nuisance Species is critical to protect water resources. ANS are invasive animals, plants, and disease-causing pathogens that are “out of place” in Colorado’s reservoirs, lakes, rivers, streams, and wetlands. Once introduced, most invasive species cannot be eradicated and can cost billions of dollars to manage.

- prior to launching in any water of the state after boating in a different state,
- upon exiting any water in the state which is positive for an invasive species, and
- any time an inspection is requested prior to entering or exiting a water body in Colorado.

Exempt Watercraft

The only watercraft in Colorado that are exempt from the mandatory inspection law and regulations are listed below. **All other watercraft must be inspected.**

- Kayak
- Canoe
- Raft
- Belly Boat
- Windsurfer Board
- Sailboard
- Float Tubes
- Inner Tubes
- Paddle Boards

Water Access Regulations

Launching a trailered and/or motorized (gas or electric) watercraft from any exempt watercraft only access points is **strictly prohibited**.

Exempt watercraft may launch at any motorized access locations, as well as several other locations in Grand County, including those listed here.

Boat Ramp Inspection Schedule and

Exempt Watercraft Information 2019

Colorado is a Mandatory Boat Inspection State

All trailered and/or motorized (gas or electric) watercraft are required to be professionally inspected by state certified personnel:

- prior to launching in any water of the state after boating in a different state,
- upon exiting any water in the state which is positive for an invasive species, and
- any time an inspection is requested prior to entering or exiting a water body in Colorado.

Exempt Watercraft
