Re: New Retail Store License

Dear Ms. Rosene:

Please accept the attached application for a Retail Store ("Igadi"). The same applications were filed with the Colorado Department of Revenue Marijuana Enforcement Division ("MED") on July 30, 2019. Accompanying the applications are all of the required documents and an requested application fee. The County should also receive an application fee from the State. The property that will be licensed is located at 843 Agate Ave., Unit A, Granby, Colorado 80446.

The retail store will serve the local and tourist population in Grand County and will sell an assortment of products including flower, pre-rolled joints, edibles, drinks, tinctures, lotions, salves, and other assorted products typically sold through a retail marijuana store. All of the products will be produced by Igadi at its separately licensed production facilities or be purchased from licensed wholesale providers.

In the remaining attached exhibits, please find all other documents as required by the Grand County Business License Application. Please do not hesitate to contact me with any questions or concerns regarding this application for a new retail marijuana store.

Sincerely,

David P. Michel
General Counsel
