

Attention, ALL EMS providers, as a Level one Trauma Center, Denver Health offers a variety of courses along the continuum of trauma care. One of these courses is Advanced Trauma Life Support (ATLS). We offer this course four times a year and in conjunction with the Denver Health EMS Education department, we are offering 17 hours of Trauma CE for anyone who would like to audit this course. We do not charge EMS personnel for this; instead, we ask that they be willing to be moulaged on the second day, for testing purposes for the provider level attendees. Attached you will find an example schedule with some of the speakers we have utilized in the past. Below are the current courses available for auditors. For each class we allow a maximum of four auditors. If you or anyone you know may be interested, please contact me via any of the methods listed below.

Nov 13-14, 2019

Jan 21-22, 2020

May 19-20, 2020

July 28-29, 2020
