

location please don't let
a group of people from one
organization make a decision
for the entire county.

My final point, there were
more than 40 million sales
in recreational marijuana this
past year in this county. Think
of all of the tax revenue and
future business it will bring
with tourists, let alone the
people of your county.

Thank you for taking the
time to read this. I hope
you consider.

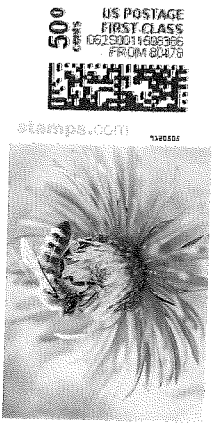

Sincerely,

Grand County Commissioners,

I am an Igadi customer
writing to you in hopes of
making a point.

I believe having another
Igadi store will help decrease
a large amount of traffic
that runs between both
towns. In result, helping
decrease traffic accidents
or risk of them.

I know I am only one
person, but there are so many
that need this location.
Think of all of your citizens
in this time of year. The
snow doesn't limit us from
driving, but it does complicate
it. Myself being someone that
suffers from panic attacks
on the roads, I need a closer
