No registration fee for this event. Zoom Link and Instructions sent upon registration.

Overview, Target Audience and Learner Outcome

This series is for interdisciplinary healthcare team members interested in learning about key topics in asthma and/or sleep. The presentations will include a review of current literature and clinical pathways followed by Children's Hospital Colorado for the evaluation, treatment and management of pediatric patients with Asthma and Sleep Disorders. In addition to a presentation from content experts, attendees will participate in case study review and discussion to provide direction on clinical practice. As a result of this activity, learners will be able to expand upon their current knowledge and potentially apply new evidence-based clinical practices as it applies to asthma or sleep disorders.

Objectives:

Upon completion of this session, participants should be able to:

- 1. Describe risk factors for developing asthma in preschool age children**
- 2. Identify inhaled devices that provide optimal medication delivery**
- 3. Discuss parental concerns about asthma medications in young children**

Faculty from Children's Hospital Colorado / University of Colorado

Naomi Miyazawa, MS, PA-C, AE-C
