Meeting ID: 244 827 6798

Objectives:

1. Review electronic nicotine delivery systems (ENDS) and current data about teenage ENDS users
2. Examine the symptoms of E-cigarette or Vaping Use-Associated Lung Injury (EVALI) and other emergencies associated with e-cigarettes
3. Identify the current state of local, state, and national legislation around e-cigarette sales (prop EE and others)

Overview, Target Audience and Learner Outcome:

The team caring for pediatric patients requires ongoing, focused training to successfully manage specialized and/or complex pediatric issues. This educational series will cover a variety of topics specific to the pediatric patient population. Physicians, Advanced Practice Providers, Nurses and Nursing Students, Respiratory Therapists, EMS Providers, Pediatricians, and other interested community pediatric healthcare providers will benefit from this education. After attending the educational event, the learner will report increased confidence and understanding of how to care for pediatric patients and increased knowledge of available resources to manage specialized and/or complex pediatric issues.
