

UCHealth Highlands Ranch EMS Education Opportunities 30 days of CE!

UCHealth - University of Colorado Hospital EMS Conference 2021 (Virtual)

March 1-31, 2021

Information:

The NREMT has waived their distributive education limits for the 2021 recertification cycle. What does that mean to you? It means you can take an unlimited amount of online CE for your NREMT recertification. For this year's EMS Conference, we're releasing our library of digital EMS CE with 8 hours of new content. We have hard to find CE's like VAD's as well as incredible content from our level 1 trauma center surgeons, Comprehension Stroke center staff, and emergency room physicians from one of the busiest Emergency Depts. in the country. The University of Colorado Hospital is a State of Colorado Approved EMS education center and NAEMT authorized training center.
