- Contact: Nichole Otto 720.848.4467 | [Nichole.Otto@UCHealth.org](mailto:Nichole.Otto@UCHealth.org)

### Class Information:

- UCHealth offers an interactive 8-hour course that addresses prehospital care for patients with acute stroke.
- This course incorporates discussion, hands-on workshops, video and standardized patients.
- Continuing education (8) hours provided.
- Certification provided upon completion.

### Learning Goals:

- Describe why early treatment may result in a marked reduction in the risk of disability.
- Identify the five primary stroke syndromes and relate them to the pathophysiology and clinical signs.
- Perform a focused, yet basic, evaluation to identify stroke, its location and severity, and tPA contraindications.
