Subject: comments about retail marijuana applications for 12365 and 12525 US Highway 34

Hello Sara,

Please forward our comments to the appropriate people.

We live at [REDACTED] County Road 465, Grand Lake, Chris and Kathrin [REDACTED]

Thank you for this opportunity to express our opinions about the two retail marijuana license applications in our neighborhood.

We hope that you will not approve these two applications.

We don't believe these businesses belong in a residential community. We suggest that this type of business be located in a business area.

We believe that marijuana dispensaries would change the rural and family nature of our community.

We're shocked that two marijuana dispensaries could be considered at the entrance of our neighborhood. We fear this would encourage other "adult businesses" to locate nearby. We enjoy wheeling our boats down to the lake, past these application locations, for a crisp-early-morning-air paddle. The traditional rocky mountain high is enough for us in our neighborhood.

We suggest that if the local governments of Grand Lake and Estes Park thoughtfully decided to prohibit these enterprises, that we should prohibit them also.

Please do not approve the retail marijuana applications for 12365 and 12525 US Highway 34.

Thank You,
Chris, Kathrin [REDACTED]
