Subject: Opposed to Marijuana sales in Winter park

Dear Grand County Clerk,

I felt I needed to voice my discomfort with more dispensaries in any part of Colorado, especially in Winter Park. I am very concerned over the health repercussions. I am a pediatric nurse and see in my practice and read studies about many small children suffering the effects of edible ingestion in Emergency rooms and increased in middle and high school students usage when the dispensaries are around schools. I don't see any need to increase the availability of this drug especially in Winter Park. As a property owner I felt I needed to have my opinion voiced. Lets look at the long term health of the community rather than the short term tax earnings that may be generated.

With respect, Alison Saylor
