**Subject:** opposed to marijuana on main

Good day,

My name is Craig Herndon. My wife and I own a townhouse at 618 Telemark Ct. in Winter Park. We chose WP, and Grand county in general, to locate because of the non-resort, real-people atmosphere of this area over others in Colorado. I am generally a live-and-let live person, however, feel that over emphasized use of marijuana will take away from the nature of our ranch and ski oriented community, and its inherent 'family' atmosphere. Another concern is safety, however, either which way this goes, I would hope that drug-testing would keep any resort employees from have traces of THC in their blood. WP is one of the friendliest mountains and related towns in the West and I'm afraid that a new identity will creep in if the number of dispensaries begins to equal the number of liquor stores. I sincerely hope that discretion prevails and WP retains the charm of NOT being like every other mountain community.
